August 30, 2023

Dear Parent/Guardian,

Fullerton Joint Union High School District recognizes the importance of a welcoming, supportive school campus, positive school culture, and overall wellness of students and staff. When students feel connected, welcome, accepted, and engaged, academics and personal wellness increase dramatically. For these reasons and in line with our goal of supporting the success and wellness of all students, FJUHSd has partnered with Panorama Education to collect stakeholder feedback through surveys utilizing research-based topics and questions.

During the first two weeks of September 2023, our students will have the opportunity to participate in the year's first climate and wellness survey. The student survey will be anonymous and will provide us with feedback on student wellness across school sites, grade levels, gender, and more. To preview the survey, please click [HERE](#).

Panorama is currently used in over 20,000 schools across all 50 states and is nationally recognized as a trusted partner in administering research-based school surveys. The topics and questions were selected to reflect the diversity of our schools and our communities. The responses will provide insights into how well students can navigate their school day feeling secure and supported, manage their emotions successfully, empathize with others, establish and maintain positive relationships, and more.

While we encourage all students to participate in this climate and wellness survey, we respect your right as a parent to have your student opt out. If you elect to opt your student out of participation, they should inform their teacher at the time of the administration of the survey that they will not be participating.

Thank you very much for your ongoing support, cooperation, and confidence in our ability to serve all students effectively.

Sincerely,

Allen Whitten
Director, Student Support Services
