** Geometry summer school is only recommended for Algebra 1 students who earned A's both semesters and are very motivated to do well in Honors Algebra 2 - it's a BIG jump!

- To be successful in the next honors course, it is recommended that a student earn an A or B in his/her previous honors course.
- In Honors/IB classes, a D at the semester may result in a transfer to college prep courses.
- An F at the semester in any math class may result in being dropped from the class.
- Midyear transfers will be evaluated individually.

Honors Recommendations

- from College Prep: strong A's both semesters
- from Honors: A's & B's

Summer School (Geometry)

- strong A's both semesters & student/parent waiver
