StrengthsExplorer

STEP 1 Intro — STEP 2 Take Assessment — STEP 3 View Results

Find out what your talents are.

Strengths Explorer, powered by Gallup, will help uncover your talents and reveal your potential strengths to you and the people in your world. From you will begin a wonderful journey of discovery, and you'll have the tools you need to make the most of your talents.

Quick tips:

1. You'll answer 78 short questions.
2. **You can only take this once.** (Your school can't reset this for you.)
3. You can't go back and change your answers as you progress.
4. Your answers are automatically saved, but we recommend finishing it in one sitting.

TAKE ASSESSMENT

I enjoy being in front of a group.

TIPS: DON'T THINK TOO MUCH ON ONE QUESTION

CHOOSE WHAT BEST MATCHES YOUR RESPONSE

Here are your top 3 themes.

Your top 3 themes are your areas of natural talent - ways in which we naturally think, feel, and act. We are all naturally good at some things, and the resources below will help you understand what those things are and the career pathways associated with them.

1. Presence

You were born to be at the front of the room telling stories and taking the lead. Other people watch you and listen to you.

2. Relating

You like to start friendships and keep them for a long time? maybe even your whole life. You widen the circle of friends for yourself and others.

3. Dependability

Trust is important to you, and you care about being seen as responsible and trustworthy. People count on you to do what you say you will do. When you make a promise, you mean to keep it.

Your Top 3 Themes

You are the only person with your exact talents. Nobody in the world is the same as you.

Theme Details

Here is a complete summary of your themes from StrengthExplorer®

StrengthsExplorer will help you think about your talents - the ways in which you naturally think, feel, or behave. Thinking about your talents may be new for you. The StrengthsExplorer report will help you begin to discover and talk about your greatest talents by identifying the areas, or "themes", in which they are found. Even though everyone has talents in all 10 of these themes, StrengthsExplorer tells you your top three themes. The descriptions of your top themes probably express the way you are much, or even most, of the time. Friends, parents and teachers might use similar words to describe you. Learning about your talents can help you grow and build strengths, as well as help you achieve what you want to do in your life.

You are the only person with your exact combination of talents - even if someone has the same top themes as you. As you read through our top themes, please remember that while some of the talents described may not fit you, many of the talents described should sound very familiar - and that is what's important. To learn about your own talents, pay the most attention to the sentences that sound the most like you.

Action items

Complete these items to get maximum benefits from StrengthExplorer®

Below you'll find ideas for using your greatest talents. Talents are like muscles. When you exercise, your muscles grow and become stronger. In the same way, the more you use talents, the more they can help you develop strengths. You might want to make a check mark next to the suggestions that fit you best and simply ignore the ones that don't seem to fit you today. These items are here to get you started thinking about how to use your talents. You may have other ideas that suit you well. The important thing is that you select one suggestion to put into action right away and get started using your unique talents to develop strengths.

1. Presence - Action Items

- Some people just naturally draw the attention of others. You have what people sometimes call "presence." People seem to pay attention to you when you speak. Think about how you can use your Presence to make a positive difference. The way you talk about others, or the activities you take part in, can influence people. How can you do that in a way that makes your friends, your class, your school, or your community better?
- There are many ways to get attention and to get others to listen. Ask people you know for ideas about how to connect with your audience. What works best? Speaking fast, slow, loud, soft, or with a pause? You might want to try being the host, the master of ceremonies, or the narrator for a program so you can practice.
- Laughter is good for people. Challenge yourself to make the room better every time you have an audience. Your audience may be your classroom, your friends, your family, or even a small group listening to a book report. How can you raise the level of humor so it builds people up rather than bringing someone down? Consider what kind of humor you want to be known for: the kind that makes everybody feel good or the kind that hurts others?
- Do you want to be a great speaker, actor, or class presenter? You may want to notice what speakers are doing that really captures your attention. Who do you like to listen to? Are there people you have seen in person, on TV, or in a video that everyone really liked? What are three things that you liked about the way they performed? Each time you see someone you think is good, take note of what he or she does well and try to do it when you speak.

A set of checklists under each theme: Check what applies to you

Overview

A variety of businesses and groups involved in theatrical and musical performances are included in this pathway. Theatrical production companies, for example, coordinate all aspects of producing a play or theater event. Agents represent actors and assist them in finding jobs. Costume design management companies design costumes. Lighting and stage crews handle the technical aspects of productions. Dance studios, schools and halls provide places for professional and amateur dancers to practice, perform and learn. Performers of live musical entertainment include musical artists, dance bands, orchestras, jazz musicians and various modern bands. Orchestras range from major professional orchestras to community orchestras.

Career Interest Profiler

START ASSESSMENT

The **Career Interest Profiler** captures your interests to help identify your personality traits and suggests careers based on the U.S. Department of Labor's data.

How it Works

 Plan to spend at least 15 minutes on this assessment.

 You'll answer 60 questions about your interests.

 The **Career Interest Profiler** then maps your results to Holland's 6 personality traits.

 Naviance then shows you careers that map to your traits and educational aspirations.

Summary

The Career Interest Profiler helps you find careers by mapping your interests to six basic types of personalities, together called the Holland Code. The higher you score, the more you are like that type.

What's Next

 Take a look at the traits where you received your **highest scores** and then view the related careers for those types.

 **Consider your education and training aspirations.** You have to level up your skills to break into any occupation. Different careers require different certification, licenses, and degrees. These can take anywhere from a few months to over 5 years. Filter related careers by education to find careers that match your needs.

 **You are unique.** Not every career that matches a personality type will be a match to your interests, skills, aspirations, or desired lifestyle. The trick is to discover the ones that do.

 Be sure to **favorite careers** that interest you to save them for later.

Your Overall Scores by Holland Trait

Career Recommendations

Great news - there are a lot of careers that could be a good fit for you based on your results. Take a look and explore what makes you curious.
