

Troy High School Course Profile

Course Title: INTERNATIONAL BUSINESS-H (Year 10-12)

Prerequisite: Refer To Registration Presentation

Description:

International Business-H will provide students with an understanding of the principles and applications of how business operates with this global economy. Students will explore topics of importance in today's world of international business, including but not limited to economics, cultural and social influences, communication, ethics, marketing, production, technology, and entrepreneurship. Students will be able to analyze the impact of international business on the economy and how change impacts the multicultural world.

Prior Skills Needed:

Basic math and computer skills

Workload Expectations:

Predominantly class work. If they are unable to complete work in class, it becomes homework.

Students will begin with a jigsaw activity by researching a country of their choice, and presenting it to the class. By the end of the year, we will learn about the top countries, according to Forbes, that participate in international business.

Students will learn about international business throughout the curriculum, and there will be an objective test as well as scenario based assignments where they learn about the culture, traditions, values, economy, politics, foods, imports, exports, industries, and other aspects of foreign countries.
