

TROY HIGH SCHOOL WARRIOR WEEKLY

January 6, 2017

Happy New Year and happy beginning of the spring 2017 semester! For some of us it seems like the year just began and August was simply not that long ago, or a time far, far, away... I hope everyone had a restful and enjoyable break because here we go!

We are underway with our spring semester and progressing towards year's end and graduation for the Class of 2017 on May 25th at 3:00pm! Go Troy senior class and go Warriors! Thank you to all our students, staff, and parents for making our first week of this spring semester go as smoothly as I have ever seen at any school!

Over winter break our athletic teams kept practicing with some playing in tournaments, such as our basketball teams. As this week began, our Boys' and Girls' Soccer teams were in action, Wrestling began Freeway League play and beat La Habra yesterday, and Girls' Water Polo also with a win over La Habra is having a great start to the season! Go Warriors! Thank you to Athletic Director, Mike Silzer for most of the action shots in this, previous, and subsequent *Warrior Weeklys* that have cool graphics!

Additionally our Cyber Defense team lead by coach/teacher Mr. Allen Stubblefield, has twenty teams competing and after two rounds of competition over break, nineteen of them are ranked in the top 30% of teams in the nation. It is important to point out that five of these teams are part of our partnership with Ladera Vista and their coach/teacher, Mr. Elmore. Great job Ladera Vista!

As has been obvious for the last couple months, we have construction happening at Troy! This is thanks in very large part to the bond that our Board authorized for a vote and our community passed for our FJUSHD schools. It is awesome to see the progress on the various projects and in terms of pool news, the demolition is now completed and we are getting ready to begin construction. Also, almost completed and right in out in front by the tennis courts is our new athletic entrance! There is still some construction clean up and additional landscaping to be done, but already it has made a major change to the look of the front of our school!

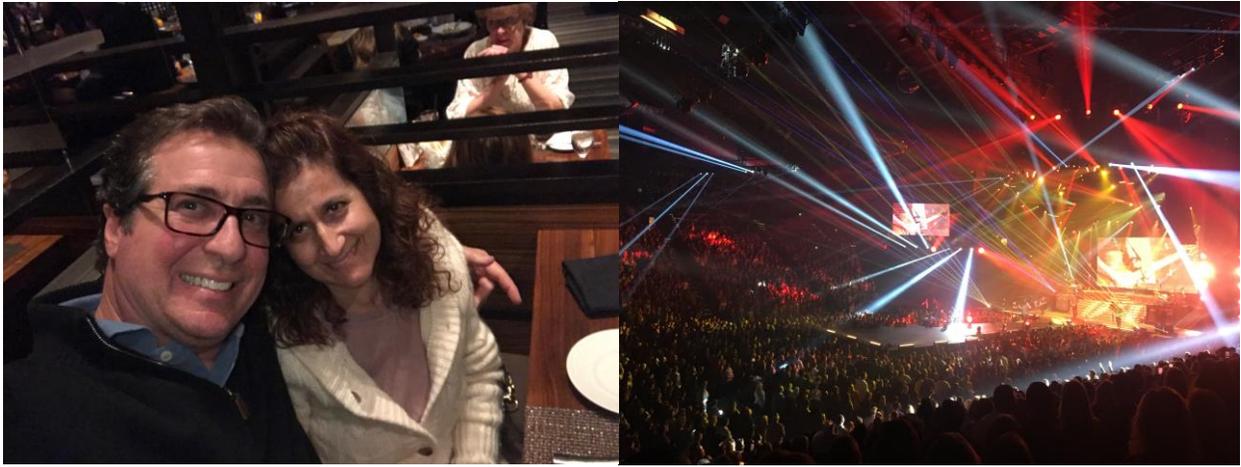

In addition to how fantastic the new concrete, fence, and benches all look at the athletic entrance, the gates have an additional feature that can only be fully appreciated when they are closed. The detail work on the gates far exceeds any of my expectations! This is another example of a great job and great craftsmanship by our FJUHSD Facilities and Construction Services Division. Thank you!

Happy news for all students that took the PSAT in October! Hardcopies of the scores are here and our counselors will be distributing them to students at lunch and after school next Tuesday, January 10th. That being said, the PSAT scores have been available online to individual students since December 12, 2016. ☺

Once again, welcome back to Troy High School! As our 2016-17 school year continues I look forward to sharing great accomplishments, events, and people that are the heart and soul of Troy High School. It is great to be a Warrior!

MGM Grand in Las Vegas at dinner and then the Luke Bryan concert! December 30, 2016. It was awesome!

I wish everyone a wonderful weekend. Try to stay dry as it looks like it will rain off and on, and then we have a rainy and soggy Monday. It sounds like a perfect weekend to stay inside, take down the holiday decorations, watch a movie or some football and rest and relax! I will see everyone back here for week two of the semester on Monday!

W.V. Mynster
