5. Additional Agenda Items

Jacob Carlisle

WASC: Mr. Fritter asked to discuss the upcoming WASC Accreditation Visit. In particular, he

1. What are we doing well? We need to identify these things.
2. What are we aware of as issues and how are we currently working on them?
3. What are the issues that we have not started fixing but are aware of?

As long as we can identify these, then we are doing our job for WASC. Mr. Fritter requested members of the SSC participate in the Focus Group meetings. He wants to invite other parents and students to

be a part of it as well. The committee will want to meet with the SSC because they are big stakeholders with input. Mr. Fritter would love SSC to be a part of it. Mrs. Andrade asked what time the meetings are? Mr. Fritter said the meetings are during late start days among other times. Mr. Eeles requested an email be sent out by Mr. Fritter asking for participation from SSC members. Mr. Eeles wants SSC involved so we can make sure that everyone's voices are heard. Mr. Fritter let students know that they can have their friends be involved as well. This will be asked of other groups as well. Mrs. Andrade also wanted to know what is discussed during these Focus Groups. Mr. Fritter clarified that each group has a template they work on that could be shared with her for input.

Campus Safety: Mrs. Zaky asked about campus safety during student drop off time. She only has seen one police officer here once on campus so she asked for an update. Mr. Weinreich said that he has spoken to PD and will continue to communicate with the SRO. Mr. Eeles said they will continue to monitor the skateboard situation with people on campus. Mrs. Andrade brought up the fights on campus and asked about school security. Who is monitoring and walking around? Mr. Eeles says that there has not been a fight on campus in a while. Mr. Weinreich and Mr. Eeles said that there was really only one week of fights and said that they have multiple campus safety aides monitoring the campus throughout the day. Mr. Weinreich also mentioned that a new campus safety aide was hired as well so that there will now be two full-time and two part-time.
